BOY SCOUTS GROW UP INTO LOYAL AMERICAN CITIZENS

The Boy Scouts of today were not the Boy Scouts of yesterday. The Boy Scouts of today are the Boy Scouts of tomorrow.

Every boy before becoming a Scout makes this promise:

1. To do my duty to God and my country, and to obey the Scout Law;
2. To help other people at all times;
3. To keep myself physically strong.

mentally awake, and morally straight. When a boy lives under such an oath, supervised by a Scout Master who is also a good citizen, America need not worry about her future. For the boys of today are the men of tomorrow.

President Wilson, in appreciation of the patriotic services rendered in almost unnumberable amount by the Boy Scouts of America, has set aside by proclamation the week beginning June 8 and extending through Flag

Day, June 14, as Boy Scout Week. There are 600 associate memberships wanted in Scout country, the memberships to the Boy Scouts being similar to associate membership in the Red Cross.

The greatest need though is for Scout Masters. This increase means new troops formed, and new troops formed means more boys as scouts enjoying the finest and best offered an American boy.

Plot To Defraud Government, Charge Officials

DETROIT, Mich., June 7.—An alleged conspiracy to defraud the government of \$30,000,000 worth of munitions supplies, has been uncovered by department of justice agents here, it became known today.

Indictments charging conspiracy have been returned by the United States grand jury against Captain Nicholas, of Washington, con-

Class Will Honor Dead Soldier Boy

Class '10 of P. H. S. in touching memorial of a member of the class who gave his life in the great conflict, will Sunday place in Trinity church a flower piece, honoring Corporal Russell Williams.

After the morning and evening services at Trinity church where Mr. Williams was a devout member, the flowers will be presented to Mrs. Williams, Gold Star mother.

It is an odd incident that when the class of 1910 last met for business session, Russell Williams, then treasurer, handed the class funds over to the new treasurer, it is this money that will be used for the flowers which will keep green the memory of a fellow-classman who in life was hailed as a good fellow and friend and in death is looked upon as Class '10's hero member.

STOLEN BICYCLE CAUGHT ON A "TROT" LINE

How a bicycle stolen from in front of the Arcadia theatre, Thursday night, ended in just such a way and in happened to be drawn up on a "trot" line Saturday morning by a fisherman, in the Scioto river is a mystery akin to those practiced on the public by bicycle thieves. The fisherman, Mr. Vaple is, however, the bicycle which again riding it.

AUSTRIAN CABINET BALKS AT PEACE TERMS

Austrian peace delegation at St. Germain. Chancellor Hoover, its head, is man with beard. M. Chaleil, French prefect, is of left. Below in famous sixteenth century chateau at St. Germain, France, where Austrians received peace terms.

The Austrian cabinet has balked at the peace terms handed the delegates by the allies. The council of ministers has voted unanimously not to accept the terms as they now stand. How far Austria will go in refusing the terms is unknown. The action of the ministers was unexpected, since Chancellor Renner, head of the ministerial council and chairman of the peace delegation, admitted at St. Germain that Austria was facing starvation when relief, directed by Herbert Hoover, reached them.

First Concert Sunday Night

The River City Band will give the first of a series of concerts at the Millbrook Casino Sunday evening at 7:30. These concerts have enjoyed an unusual popularity during past summers.

A splendid program is being arranged by leader George Kahl.

OBITUARY

Miss Irene Sisson
Death of Miss Irene Sisson, one year old daughter of Mr. and Mrs. Allen Sisson of 202 Fifth street today at noon following a short illness of cholera infantum. The little one had been ill for only a short time and the many friends of Mr. and Mrs. Sisson will be shocked to learn of their loss. Besides the grief-stricken parents she leaves one brother Allen Jr. and one sister Edith, to mourn her death.

Here D. O. Garrison, Ky., was a business visitor to the city Thursday and Friday.

W. O. Woodcock of Orlan, Ky. was a business visitor to the city Saturday.

Weight of Ice.
A cubic foot of ice weighs 57 1/2 pounds, or 50 cubic inches weight almost exactly one pound. A good way to estimate the weight of a rectangular block of ice is to multiply together the length, breadth and thickness in inches and divide the result by 30, the answer being given in pounds.

to keep young.
The great enemy of youthfulness is the drying-up process, and this is why we should not only keep as much as possible with the young, but should enter into their joys, their plays, with zest and enthusiasm. We should romp and play with them, interest ourselves in the things that delight them, instead of pushing children away from us and restraining them all the time, regarding them as a nuisance and a bore. Children were given us to keep us youthful, to keep our sympathies fresh.

Restoring Mirror.
Select a sheet of tin foil of required size and pour over it three drams of quicksilver for each square foot of foil. Then rub the foil with buckskin until it becomes brilliant. Lay a sheet of paper over the foil, completely covering it, and place upon the paper a slab of marble or block of wood with flat smooth surface. Allow to stand for three or four hours to "set" and then remove the weight. If the work has been carefully done the foil will adhere closely to the glass. Usually, however, it is cheaper and more satisfactory to buy a new mirror than to attempt to restore an old one.

JUNIOR COMMUNITY SING PROVES TO BE MOST DELIGHTFUL AFFAIR

Just at twilight when the real bees and butterflies go to sleep and all flowers close their eyes, some delightful "make believe" was on the broad platform in the flight of steps lead to the front entrance of the Portsmouth High School Friday night. The opera which was given was exceptional. The entire entertainment was given by 15 members of the Junior Community Sing and was under the direction of Miss Harriet Smith, teacher of music in the public schools.

There were flowers of all kinds, violets, sunflowers, poppies, clover, black-eyed susans, roses, jonquils and daisies. Enough boys were present to be the bees and butterflies.

The scene was spectacular and altogether delightful. Broad steps leading to the platform, broad steps as a background for an unprecedented picture produced an artistic effect.

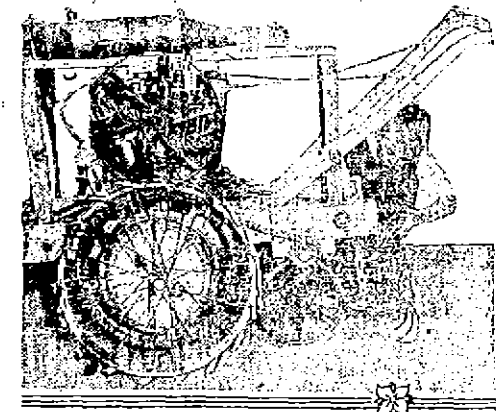

Seventh and eighth grade students of schools in the city took part in the operetta. The singing was all that could be asked for and a great deal more for it is quite to say water had been carried with greater effect or on kinder breezes.

Spectators in automobiles and standing on the lawn erected 1000 in number all the time, once in a while the groups changing.

"The dancing was excellent and beautiful."

It is hoped that the idea will be remembered for future entertainments as so much pleasure was derived from Friday night's operetta.

BOY MECHANICS MAKE GARDEN TRACTOR

Garden tractor built by San Fernando, Los Angeles, high school boys. Boys of the San Fernando high school in Los Angeles wanted to save time and elbow grease in their garden work, but could not afford to buy a tractor. When they saw a motorcycle wreck they seized the crushed machine the disfigured owner abandoned, repaired it in the school shops, fitted the wheel with traction devices, attached handles and control and then cleaned up their share of the work in the time.

"Naturalized" Bird in Cuckoo Clock.
Cuckoo clocks, once so popular, were for the most part "made in Germany," so a jeweler in an Indiana town decided that it was time that the bird in his clock should be "naturalized," says the Poplarville Mechanic. When he had finished alterations the 17th came forth and whistled "Bob White," like a native American.

Eagle is Threatened.
The existence of the bird which is the emblem of America is threatened. An Alaskan line places a bounty of \$500 on every bald eagle killed. The result is that in 19 months over 500 eagles have been killed. The eagle is charged with destroying salmon, young deer and game birds.

EX-GOVERNOR WILLIS TO SPEAK

Ex-Governor Frank H. Willis will deliver the class address at the New Boston High School commencement tonight at eight o'clock in the Glenwood avenue high school auditorium. Six graduates will be presented with diplomas tonight by Charles Fiddler, president of the school board.

A splendid program of music has been arranged for the graduation exercises. Everyone is invited to attend the affair.

ELM GROVE MEMORIAL Heat Victim Much Better

Annual memorial services will be held by the members of Elm Grove, W. O. W. Circle No. 64 Sunday afternoon at eight o'clock in the Glenwood avenue high school auditorium. Six graduates will be presented with diplomas tonight by Charles Fiddler, president of the school board.

A splendid program of music has been arranged for the graduation exercises. Everyone is invited to attend the affair.

Not Pinckney's Words.
"Billions for defense but not one cent for tribute" is attributed to Charles Cotesworth Pinckney. When John Jay, in 1794, made his famous treaty with England which threatened to launch the United States to war with France, the directory would not receive the American ambassador, but intimated that the matter might be settled by the payment of a certain sum. Pinckney indignantly answered with the above phrase. It is said, however, that long afterward Pinckney was asked if he had ever said it, and he replied: "No, my answer was not a doubtful like that, but simply, 'Not a penny, not a penny.'"

Books That Profit.
There are hundreds of books, each one of which, if read, really stimulates by the person in whom it happens to appear, will enable that person quite unconsciously to furnish himself with ammunition which he will find of use in the battle of life.—Homesick.

Strength.
Said the observing man: "The kid who was the despair of his parents because he couldn't carry a tune usually develops into the kind of business man who values the mortgage on the 224 home place as soon as he gets to the harness."

Huge Hailstones.
There are numerous well-authenticated cases of hailstones weighing half a pound and more, but clumps which go far beyond this meager weight are made. Stones of six to eight pounds are said to have fallen in Namur in 1719, and the misapprehension, Father Hue, who ought to be a credible witness, records the fall in Tartary, in 1510, of a block of ice as big as a millstone, which took three days to melt. In May, 1892, a Hungarian village reported a 1,110-pound block, requiring eight men to remove it; and in Tip-top's time, one as big as an elephant was said to have fallen near Serapator.

ALUMNI BANQUET IS ONE OF THE FINEST EVER HELD BY ASSOCIATION

Complimentary to the class of 1919, the Alumni Association of Portsmouth high school, entertained with a banquet, followed by a dance, at the M. H. S. Parish House, Friday evening, June 6, from 7 p.m. until 1 a.m. A full basket of flowers, caught in the hands of a few of the girls, and a large number of bouquets of this year's graduates, were the first of the evening. The girls of the class of 1919, who were the guests of honor, were seated at the head of the table, and the other classes followed in order of graduation. The banquet was a most successful one, and the dancing, which was held in the large room, and this with an orchestra of four, was a most enjoyable feature of the evening. MAY WIN WOMAN'S GOLF CHAMPIONSHIP

Miss R. H. Barlow

Mr. Lowry filled the honorary office given him, in his usual able manner. During the past week we have been made to believe the value of the whole world rested upon our youthful shoulders. But upon thinking a few moments we found that our task was lightened for us by you. We are the heirs of the ages and only the credit of taking advantage of this fact, is due us, nothing else. Instead of "we go, so goes the world," we are rapidly finding that "as the world goes, so also do we go." Our definition of the world is as follows: "That organization which builds up the spirit of U. S. from a higher point of view," and if we can do that spirit by giving the whole of youth we have gained from our days at school, then we have a mission to perform," he said.

Wife Asks Divorce

Charges of infidelity and cruelty are contained in an action for divorce and alimony instituted in Common Pleas court today by Jessie O. Mason, 1021 Front street, through Attorney Luther Thompson against William A. Mason, a former locomotive engineer of this city, now located at Savannah, Ga., whom she married March 4, 1903. The plaintiff in her petition alleges that Mason continually spends his time and money on other women and besides has associated with one Betty Arnett and other women to the extent that he no longer cares for his family, she says. The wife further asserts that Mason in February last left his family and went south and recently wrote her a letter that he never intended being with her again. The plaintiff also asks for custody of their 1 daughter aged 6 to 15 years.

Judge Stephenson Coming
Judge Will P. Stephenson, of West Union, is expected to arrive in the city Sunday and on Monday will hold a session of court here before going to Trenton where he will preside in the trial of a case in the Lawrence County Common Pleas court Tuesday. The judge will then return here Wednesday for the remainder of the week and perhaps longer.

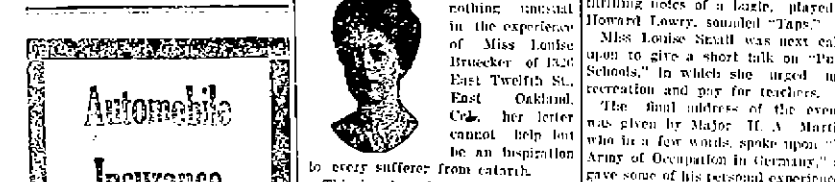

Divorce Granted
An entry was filed with Clerk of Courts John W. Hall today granting a divorce to Jessie Davidson from William Davidson on the ground of extreme cruelty. The case was submitted to the court several days ago. Sale of Church Confirmed
An entry was filed with Clerk of Courts John W. Hall today confirming the recent sale by the Trustees of the United Brethren church of the old church property, Seventh and Gay streets, to Miranda Allard for \$6,000. The property will be conveyed into living apartments, it is said, by the new owner.

Receives Commission
County Recorder-elect Carl P. Baum today received his commission from Governor James M. Cox. Mr. Baum, who enjoyed the distinction of being elected while he was away in the military service, will assume his office the first Monday in September. Among other county officers-elect that have received their commissions includes Edward Cunningham, who will succeed John H. Hall as Clerk of Courts in August and Roy Dobson, who becomes county auditor in October, succeeding Sampson D. Eckhart.

Damages Suit Scheduled
The case of Oscar W. Robinson against The Portsmouth Street Railway & Light Co. is scheduled to come to trial before Judge Stephenson and a jury in Common Pleas court on June 11. Robinson sued for \$200 damages to his automobile which was smashed in a collision with a street car at 126th and Lincoln streets on Feb. 24, 1918. Attorney B. F. Kumble for plaintiff appeared by Attorney Milner & Seart for defendant.

Diphtheria Left Her With Catarrh of the Throat

After Years of Suffering, this Lady Sought and Found Relief in PERUNA, the Great Catarrh Remedy.

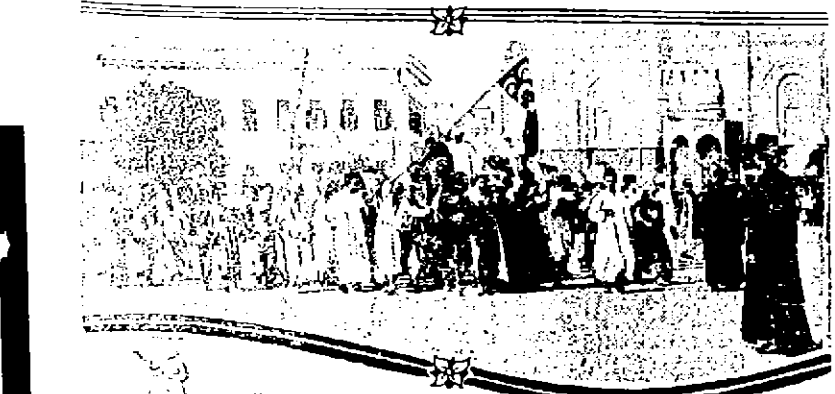

While there is nothing unusual in the experience of Miss Louise Bruckner of East Twelfth St., East Oakland, Cal., her letter cannot help but be an inspiration to every sufferer from catarrh. This is what she says: "Diphtheria left me with catarrh of the throat. After years of suffering and disappointment, I gave up hope until I heard of PERUNA. I tried it. Followed instructions and have had no catarrh since. Now, we always keep PERUNA and MAN-A-LIN in the house." It is not necessary for any one to go on year after year suffering with catarrh in any form. PERUNA is just as effective for catarrh of the stomach, bowels, liver and other organs as it is for coughs, colds and catarrh of the nose and throat. It is by regulating the digestion and adding stimulation that PERUNA secures a rich supply of pure blood and nourishment being carried to the mucous linings everywhere. By keeping the mucous membranes healthy, the body is better able to resist disease and ward off such troubles as the Grip and Spanish Flu. PERUNA is of extraordinary value in rebuilding the body to normal health and strength. Tablets or Liquid. Sold Everywhere.

ARRESTS AVERAGE ONE A DAY

For days have now elapsed since Portsmouth and Ohio became as dry as a Sahara desert and not an arrest for intoxication have the police department made during the time. This establishes a record for no arrests for drunkenness in the history of the city.

EGYPTIAN MORS DEMAND INDEPENDENCE FROM GREAT BRITAIN

Anti-British demonstration in Cairo.

All Egypt is aflame with the spirit of nationalism and during the past few months many demonstrations against continued British rule have been staged in Cairo. The photos were taken during recent anti-British riots. The upper picture shows a mob of Egyptian fellahs or peasants in front of the sultan's palace at Assiut who later attacked foreigners at Assiut and would have duplicated Indian massacres at Lucknow had ammunition and relief not been brought by airplanes. The lower photo shows another group of fellahs just before they raised the Egyptian flag over the statue of Mohammed Ali, in Opera Square, Cairo.

To Lecture At Stockdale

Charles L. Bennett, of this city, will deliver a lecture in the R. of P. hall at Stockdale this evening. He will use as his subject, "The Guide Post." This lecture will be given under the auspices of the Christian Endeavor Society of the Methodist Protestant church of Stockdale.

Marriage Licenses

After an absence of a couple of days Cupid got back on the job today long enough to lead a love-lorn couple to the court house, where they were tested a trifle to seal. The couple that secured the license was Cecil Patton, 23, laborer, New Boston, and Zelma Jones, 18, clerk, New Tazewell. They did not know who was to perform the ceremony.

Perfume Their Obed.

Natives of Torres Strait Islands, to the north of Queensland, have some peculiar burial customs. One is the washing the bodies with cheap perfume, the remainder being carried to the bottle and left at the grave. In some cases a cheap stone is set on the grave and this ceremony is usually marked by a three-days' gorge on the part of the relatives of the departed. Big rains and terrible being shaken down to make room for more by vigorous dancing and singing.

A 200-Foot Dive.

The greatest depth ever reached by a diver is said to be 204 feet. The greatest depth at which metal work has been done is 152 feet. Sponge and pearl divers, working without armor, frequently descend to depths of about 150 feet.

Watch Your Kidneys for After-War Ills

Influenza and Wartime Strains have left Thousands with Weak Kidneys

WE must see to it that the years 1918-1919 do not leave the curse of kidney disease that followed the Civil War. The most common causes of kidney weakness are fevers, colds, chills, exposures, overwork, worry and unwholesome diet, and our two war winters have been full of these conditions for both soldier and civilian. Pay attention to the first signs of kidney weakness—backache, rheumatic pains, dizzy spells, headache and any abnormal kidney action. Use Doan's Kidney Pills promptly. It may save you from a later attack of gravel, stone, cystitis, dropsy or Bright's disease, and in Doan's you will get the most widely used kidney remedy in the world. It is the remedy recommended by the people for the people.

These Portsmouth Cases Prove Doan's Good:

GALLIA STREET
James Hughes, prop. bicycle shop, 2125 Gallia street, says: "My back was so lame I could hardly lean over at work, because when I did such sharp pains would catch me in my back and I would have to sit still for several minutes. My kidneys acted too often, and the secretions were watery and of a reddish color. I got Doan's Kidney Pills at Flood & Blake's Drug Store and they gave me fine relief."
(Statement given October 22, 1914)

AGAIN PRAISES DOAN'S
On August 10, 1917, Mr. Hughes said: "Doan's Kidney Pills cured me of kidney trouble and I am glad to praise them again. I can't say too much for Doan's."

WEST EIGHTH STREET
Mrs. E. S. Rickett, 614 W. Eighth St., says: "My kidneys were troubling me and I had dull pains in the small of my back and it was all I could do to keep up at my work. My feet and limbs ached quite badly and I had sharp pains through my hips and down into my feet. I was downy some days and felt tired and sick most of the time, so I could hardly do anything but drag myself around the house. I was told about Doan's Kidney Pills and got some at the Red Cross Pharmacy and was pleased with the relief they gave me. One box regulated my kidneys and helped me a great deal and the second box cured me entirely."

JEFFERSON STREET
Mrs. C. A. Root, 220 Jefferson St., says: "I used Doan's Kidney Pills often and on for a number of years and they never failed to do me a lot of good. I think the last attack was about two years ago. My kidneys were surely giving me trouble. My back pained me so severely and I had such a dull, nagging ache in it and it was all I could do to keep up. When I bent over it seemed as though my back would break. I was sometimes so dizzy I nearly fell to the floor and I was in poor health in every way. I saw Doan's Kidney Pills recommended in the paper and I decided to give them a trial. After I had used one box, my kidneys were acting right and the backache was gone."

EIGHTEENTH STREET
Leslie Fenner, carpenter, 1219 18th street, says: "I was in a pretty bad fix with kidney complaint. When I stooped over, I could hardly straighten up. My kidneys acted too frequently and the secretions were watery and burned in passage. I had such severe pains darted through the small of my back and at times had dizzy spells that I would often stagger around. I bought a box of Doan's Kidney Pills at Flood & Blake's Pharmacy and felt relief from the start. Two boxes fixed me up in fine shape. Since then, when I have similar attacks, Doan's Kidney Pills have always given prompt relief."

SHOPMEN ALL ALONG N. & W. ARE OUT ON STRIKE

Local Men Say They Will Stick To Finish; Officials Of A. F. of L. Say Strike Is Illegal

(BY ASSOCIATED PRESS)

WASHINGTON, D. C., June 7.—Orders that they should return to work immediately under penalty, were sent today to the striking shopmen of the Norfolk and Western Railway by officials of railway employees' division of the American Federation of Labor, who said that the strike was illegal and un-sanctioned.

RAILROAD ADMINISTRATION MAKE STATEMENT

Officials of the railroad administration said the dispute which caused the railroad was purely local and would be settled at the shops where it originated. They expect that the new week's work will commence without interruption. A question of shop discipline was said to have been the cause of the strike.

When informed by a Times representative this afternoon that officials of the railway employees' division of the American Federation of Labor had issued a statement saying that the strike of the N. & W. shopmen was illegal and un-sanctioned Oscar Strong, a member of the executive and press committees of the shopmen this afternoon said: "The Boiler-makers' Union No. 102 of this city received word this afternoon that the strike was illegal and ordered them back to work. Those who were in the hall at this afternoon's meeting decided to stay out until the trouble is adjusted. All other Federated Crafts have received no official word about the strike being illegal or un-sanctioned. The trouble is purely local and must be settled before the men return to work. At our evening meeting this afternoon the men decided unanimously to remain out until the difficulty is adjusted. Fifty-four hundred men are out here and they will stand legally back of their union principles."

ROANOKE, VA., June 7.—Strike of Norfolk and Western Railway shopmen has spread over the greater part of the system from Norfolk to Columbus, Ohio, according to reports received today by A. C. Needles, federal manager of the road. Work has been suspended at Bluefield, Wilkes, Elmont, Kimball, Williamsburg and Kenova, West Virginia; Columbus and Portsmouth, Ohio, and Roanoke, East Bedford and Clark, Virginia.

Local Man Does Not Believe Transportation Men Will Be Affected

Relative to an associated press dispatch from Roanoke this morning that 4,000 N. & W. shop employees there had gone out on a strike and that they expected to be joined by the trainmen and engineers within a few hours, O. A. Phillips, secretary of the local branch of the Brotherhood of Railway Trainmen today authorized the following statement:

"The shop men are affiliated with the American Federation of Labor. The transportation department is not and we are in no way involved in the present strike. All the Federated Crafts along the N. & W. system are recognized by the American Federation of Labor. We have called no meeting of the Brotherhood of Railway Trainmen here."

The dispatch referred to was as follows: ROANOKE, VA., June 7.—More than five thousand machine shop employees of the Norfolk and Western Railroad went on strike today and they expect to be joined by trainmen and engineers within a few hours.

The suspension of work, the federal manager said in a formal statement, is a violation of the contract between the employees and the company. The strike resulted from a refusal of the company to reinstate several men who had been discharged at Wilkes.

Quit Work At Columbus. COLUMBUS, O., June 7.—Approximately 750 men employed in the Norfolk and Western railroad shops here laid down their tools this morning in accordance with the sympathetic strike order.

At the strike of nine o'clock this morning, every workman affiliated with the Federated Crafts laid down his tools in the N. & W. shops in East Portsmouth and walked out in a sympathetic strike.

Officials of the Federated Crafts estimated that 1,500 employees were affected by the strike order.

Officials of the N. & W. at division headquarters in East Portsmouth, estimated that from 1,000 to 1,200 men had quit work.

The men left their posts without making any demonstration and in an orderly and quiet manner, marched through the downtown streets to District hall, Seventh and Chillicothe street, where the men will hold their meetings.

The Cause Of The Strike. Early in the week, eight men were discharged at Wilkes, W. Va., 30 miles west of Bluefield, on the Pocahontas Division. When the N. & W. officials refused to reinstate these men and discharge the foreman, who discharged the

workmen, the Federated Crafts on this division declared a strike, claiming that these men had been unjustly discharged.

Members of the Federated Crafts at Bluefield, Williamston and Roanoke, laid down their tools Friday and members in Portsmouth, Clark, Columbus, Kenova, Crew and Lambert's Point, walked out at 9 o'clock this morning.

According to a statement made by the executive committee of the Federated Crafts, it is anticipated that at his post here or at any other place where the walk-out order became effective.

The Federated Crafts of this city at a meeting Thursday night decided unanimously to strike in sympathy with the Federated Crafts of the Pocahontas Division. This action was taken in District President Fred Landmann of the Federated Crafts at Roanoke and District Secretary J. E. Shostaker of Roanoke last night.

Believe Men Were Unjustly Discharged. According to the workmen the men were advised to act on their own judgment. "We have done this and believe the eight men at Wilkes were unjustly discharged," the executive committee stated to a Times reporter this morning.

Company's Side Of The Dispute. According to a statement issued by N. & W. officials here Saturday one of the eight men at Wilkes was discharged for failing to obey instructions from his foreman, one for improper work and six for leaving on the job.

When officials at Bluefield refused to reinstate the eight discharged employees and remove the foreman the Federated Crafts of that Division declared a strike and all other Federated Crafts

on the entire N. & W. system have struck sympathetically.

It was stated today at the local division headquarters that the strike was the largest in the history of the N. & W.

According to statements made by the men in District hall the following local unions are involved in the sympathetic strike here: Machinists Union No. 319, Car Repairers Union No. 108, Pipe Fitters and Sheet Metal Workers No. 329, Boiler-makers Union No. 402, Blacksmiths Union and Electric Workers Union No. 403.

Shortly after the men walked out this morning there was a veritable anti-parade to the hall, Seventh and Chillicothe streets. Each machine carried five or six workmen and they were lined up for several squares on Seventh street. Many the men carried their lunch baskets and boxes with them and enjoyed their noon day meal in the hall instead of in the N. & W. shops.

Many of the workmen are already making arrangements to enjoy their first fishing trip of the season. "It is our first chance to enjoy an outing and believe me, many will take advantage of it," one of the men said at the hall this morning.

N. & W. Gives Out Strike Statistics. At the division offices of the N. & W. in East Portsmouth this afternoon, it was stated that the strike inaugurated this morning had affected 550 men in Portsmouth; 500 in Columbus; 60 in Kenova; and 55 at Clark. The statement was made that there will be no interruption in freight and passenger service on this division or any other divisions of the road. Officials declared that the road house in East Portsmouth was open and in operation. They added that the strike had spread to the N. & W. docks.

The representatives, appointed to attend the state session to be held in Columbus the last week in August are Mrs. Belle Stewart and Miss Pearl Dixon. The alternates appointed to attend this session are Mrs. Rosa Ward and Miss Iola Stewart. The District Rally will be held at Newsville, June 12 and Miss Iola Hornbuckle will go as a delegate from the local council.

Pastor Spring To Speak At "Columbia" Sunday

The Peoples Pulpit Lecture Bureau Association has given W. H. Spring of this city a regular appointment for Portsmouth for Sunday. Arrangements have been completed for him to speak in the Columbia theatre at 3 o'clock.

He has been requested to use the subject "Is there hope beyond the grave?" and will do so. This lecture promises to be of special interest because among other matter of interest, the much needed question of a "Second Chance" for Salvation is to be thoroughly examined.

As usual this lecture will be entirely free and there will be no collections or money solicitation. All expenses having been provided for in advance. The public is cordially invited. Mr. Spring has used this subject in Cincinnati, Columbus, Dayton, Philadelphia and a number of other places before large audiences and he is reported as having made a deep and favorable impression upon his hearers and greatly stimulated Bible research and study.

CUTICURA HEALS ECZEMA

Almost all over husband's body. Treated but got worse. In rash form and skin was sore and red. Burned and itched and he scratched very much. NONE THE LESS OBJECTIONABLE

In certain quarters strenuous efforts are being made to have the United States take the mandatory for Armenia and Turkey. Mandatory is a word that has come into general use with the peace conference. Its applied meaning is that one of the allied nations shall take control over certain named territory and hold it until the people therein have developed for self government.

There seems to be no spontaneous uprising in this country to accept the guardianship urged, and 'tis well there is not, that, too in spite of skillful and persistent appeals to arouse American sympathy for Armenians. Undoubtedly they suffered horribly at the hands of the Turks. There was, however, much exaggeration, now in the calmness of peace realized, that has a tendency to cool desire for assuming extraordinary responsibilities for their exclusive benefit and our sole cost. We read, for instance, frequently, during the process of hostilities, that the Turks had slaughtered ruthlessly, buried in trenches, or driven into the desert, to perish, thousands, tens of thousands, hundreds of thousands, yes, near millions of Armenians. Dreadful as was the persecution generally it could not have claimed so many victims, since in 1913, a commission of the western powers estimated there were but 1,225,000 native Armenians. Estimates always run higher than the reality, so we may assume that was more by considerable than the actual number. A second commission, visiting the country since the armistice, estimates there are a million therein at present, with constant accessions from those who were either driven from or fled the country.

This, however, is neither here nor there in so far as the matter of the United States mandatory is concerned. As to that the simple fact is Americans do not want it.

FIVE SEPARATE INVESTIGATIONS

CONGRESS is going to investigate the conduct of the war. Congress is going to investigate the incidents of the war. In fact, if there is anything before the war, during the war, or after the war that congress isn't going to investigate it so far hasn't found out what it is.

And what is congress going to do this for? To fix and establish the boundaries of the wonderful achievements of America. To award the laurel wreath of fame to those who so gallantly won the victories? Nothing could be further from the thought.

Congress is going to investigate the war to bring out every bit of little tattle, to prove that a dollar was spent more here than should have been used there. Every scandal and accusation that the idle, the disappointed and the dissatisfied conjured of spiteful and evil purpose will be spread in noisome detail. Not a word will be given to praise, to success, all to censure and failure.

Common sense will tell us that in an undertaking so gigantic there must have been mistakes, many made; that there was waste and excessive cost. War always means that and generally it means more from which this war seems to have been singularly free, graft and downright stealing. We had to move, we had to spend. Time was the most precious of all things, it transcended dollars because it meant human lives. What matters it then if we made blunders and blundered momentarily now and then, that a few millions were squandered that we might have saved by pausing and baggling? We accomplished the incredible, we wrought in six months what the world said it couldn't do all together in two years. With our powerful quick stroke we laid Germany low in less than a year when all the tactics and the experts said it would take five, ten, fifteen, or even twenty. It is contemptible to inquire into the details since it was so magnificently done.

To the contrary says politics and that is the root and the bottom of the five investigations.

THE LIMIT NOT REACHED

NEW YORK papers are taking serious alarm raised by some professor that the United States has well nigh reached the limit of its production and that soon it will be unable to feed an increased population.

Nonsense. New Yorkers should step outside the narrow confines and learn something of the country. It would also be well for them to learn the difference between production and productivity. It may be that present production and consumption have no great margin between them. Nevertheless, that has little to do with the future, whose wants must be met by productivity. The lands of America are not today within half their possibilities for the morrow. In this country there is scant effort at intensive farming. Intensive farming would bring the tilled fields up to three times their present average yield. There are millions, untold millions of rich acres uncultivated. There isn't a state where tens of thousands of acres are not lying idle. You will find them in North Carolina, Texas, all through the south, Ohio, Missouri, Illinois, everywhere, in every county. Some places in great bodies, others in countless small patches. When the demand comes, when it is realized it will pay them all will be cultivated.

We had a hint of that the past two years when in every town there were hundreds of war gardens. Each individual one did not amount to much but in the total their value ran far into the millions.

No, this country isn't in any immediate danger of a food shortage by reason of lack of internal productivity. The potentialities of the soil are great enough to support such growth of population as we have had for a thousand years.

NOT THE WORK OF A DAY

ALREADY some impatience is appearing over the fact, assumed, that no arrests have been made in the bomb outrages that were perpetrated upon a number of prominent citizens from Pittsburgh to Washington, earlier in the week.

The thing isn't to catch the perpetrators, but to punish them properly when once caught. We are confident the detective skill of the country can be relied upon to the first. The second there will be grave doubt about. Knowing a man has committed a crime and getting an American jury to say guilty are things wider apart than the two poles.

The failure of justice, so frequently lamented, does not arise out of non-arrest but non-conviction. This is a brand new, but seldom, indeed, does the criminal who is earnestly sought, succeed in successfully eluding therein. American detectives may not be the best in the world, still they are no slouches when it comes to running down a fugitive, and they have the best aid in the people, the most intelligent people on earth. So the anarchists will be

run down in good time. Their conviction is another matter to be determined later.

THE WISHING PLANE

When they left the docks, Captain Brave hailed a man in an auto and arranged with him to take them to the camp.

When they reached the camp they found what seemed like thousands and thousands of wooden buildings and tents arranged along the streets just like houses in a big city. Soldiers were marching along the streets and going in and out of the houses. Everything was bustle and bustle, but the children noticed that everybody seemed to be working and there was no confusion.

Captain Brave told the children how orders issued by the officers told the soldiers what to do every minute of the day.

Jack must have been hungry, for about the next thing he asked was:

"How do they feed all the soldiers?" Captain Brave said. "There are probably just getting dinner ready now, so we will go to one of the mess tents and watch them get ready to feed the boys."

For fear you don't know what a mess tent is, I will tell you that it is the army kitchen, where all the cooking is done, and where the soldiers' meals are given to them.

When the children arrived at one

of the mess tents they saw dozens of soldiers peeling potatoes and other vegetables. Other soldiers were cutting meat and still others were taking other food in great big kettles. The potatoes and meat were cooked in kettles, too. These kettles were three or four times as big as wash tubs.

Ladydear pointed out huge boilers at one end of the room where the coffee was made. Soldiers were dumping big bags of coffee into the boilers and filling them with water.

The children watched preparations for the meal until it was almost time for the dinner to be served. Then Captain Brave said, "We will go out now and watch the soldiers get their dinner."

When the children stepped into the street they heard a bugle call. Captain Brave told them that this was the call for the men to "fall in line for dinner."

A few seconds later Jack and Jane saw the soldiers appear from the houses and line up in the street. Then they marched in a line up to the mess tents to get their meal. Each soldier had a tin plate and cup and knife and fork and spoon. The children noticed that every one of the plates was heaped up full with the meat and potatoes and other things they had seen cooking and the cups were filled with coffee.

From the kitchen the soldiers went to tables where they ate their dinner. The children were wondering whether they, too, were going to eat, when Captain Brave spoke to the man in charge of the kitchen they had visited.

A few minutes later they were sitting at a table in a little room near the kitchen used by the officers and were served large portions of everything.

The children couldn't help but notice how good all of the food was. After dinner Ladydear said, "Now, let's go out and see some of the folks who live around the camp." So they all climbed into the automobile again and went into the country at the farther end of the long soldier village.

NEW-YORK-DAY-BY-DAY

OCHENTYRE

NEW YORK, June 7.—The ancient wrecks that are the last link between the Empire and the Motor age are getting scarcer each day. The day of the cab horse is about ended. Only at night is the cab horse in demand, and the delighted drivers, half asleep, can be seen on the box around Herald and Times Square after midnight, apparently not caring whether business becomes extinct or not.

The cabmen are generally a philosophical lot, and in my opinion more trustworthy than the average New York taxi-driver. The other night at Broadway and Forty-third street, John Murphy, a faded Broadway cabbie, was hit by a woman's comb.

John had gone to sleep on the box of his cab, and there is proof that John's Nap Dolce Far Niente, by Ignazio Riquemans, out of manuscript, had been in a remote state since sundown. The comb to which was attached a piece of newspaper bearing the thrilling legend: "Help! Man in room!" bound Dolce Far Niente squarely between the ears without getting a flicker of recognition.

But when the comb had bounced from the dome of the cab, then from rick to rick and finally into the lap of the dozing John Murphy, John immediately straightened up, leaped for his whip and said mechanically:

"Yes, sir. I know every place in town that's still open. Where to, sir?"

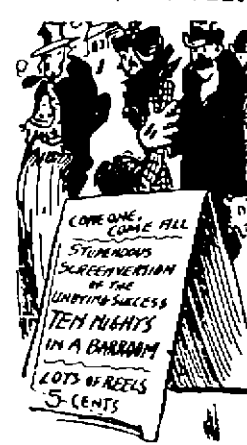

Then John looked at the paper, read it and looked up and saw a fair maiden in distress in an upper window. In a jiffy he mounted the stairs leading to her apartment and caught the man—a burglar—hiding under the bed. The young lady was asked to go to a police station instead of taking John's cab—well, she called a taxi and John, his bones cracking and John's stiff from the night air, threw an extra blanket over Dolce Far Niente, climbed back on his box, lighted a pipe and dozed on and on. Around his mouth was a quaint philosophical half smile.

"I guess we are about done for," he said to Dolce as dawn appeared.

It is a long time since Broadway was a pasture and many a year since the loss and girls of the old Quarter, closed on Henry street cramped north on Saturday afternoons to picnic in the woods and farm lands near what is now 11th street, far outside New York.

The daily country roads have given way to busy streets, the red brick farm houses to lofty tenements, and

FRANK ARTHUR VANDERLIP
Frank A. Vanderlip, president of the National City bank in New York and famous American financier and corporation head, has returned from Europe with a story of appalling conditions.

He spoke at a dinner in New York recently and stated that England is on the verge of a revolution.

He said that America alone could save Europe, and that his aid must be extended to all countries equally.

Food conditions in Europe will be worse next year instead of better, and the suffering and the suffering will be greater than it was during the war, he asserted.

He quoted a British minister as saying that means would have to be found to send six or seven million Englishmen out of the British Isles and closer to the sources of food production.

Italy is afraid to disband her army because she cannot employ the men and is afraid of idleness, he said.

Mr. Vanderlip is not an alarmist, and his warnings made a deep impression.

TO CALL NATION-WIDE STRIKE OF TELEGRAPHERS

French Expect Germans To Refuse To Sign

CONTRADICTION REPORTS CONCERNING SITUATION IN THE SOUTHERN STATES

WASHINGTON, June 7.—President S. J. Hunsbarger, of the Commercial Telegraphers' Union of America, who is en route to Chicago, announced his departure last night that he would call a nation-wide strike of telegraphers upon his arrival in Chicago late today. The strike is proposed in support of the Western Union Telegraph Company's employees in ten southern states who went on a strike Thursday night.

When he reaches Chicago, Mr. Hunsbarger stated, it would not be known whether the spread of the strike will be confined to the Western Union Telegraph Company, or if it will include the Postal Telegraph and Cable Company. He also said the proposed strike also had

not been determined. Western Union officials claim that of the 10,000 employees of the company who are to join the telegraphers' union, only 700 were members and expressed belief that a strike would not seriously impair the service. Post office department officials are not concerned in the threatened walk-out as the order of Postmaster General Burleson is retroactive operating control of the companies to their former owners, puts the burden of conducting the strike on the companies.

CONTRADICTION CLAIMS
Atlanta, Ga., June 7.—There were no developments early today in the situation resulting from the strike of operators employed by the Southern Railway system. The Western Union Telegraph Company and chief interest in the controversy centered in announcements in Washington last night for S. J. Hunsbarger, president of the national organization of union men, that he would call a nationwide strike of members of the union at a date to be decided in Chicago late today.

Both leaders of the strikers and officials of the company continued to issue contradictory statements concerning the number of men who quit work Thursday night and yesterday. H. C. Wurtman, general manager of the Southern division, said the company was carrying on an interrupted survey and that the latest survey of his district showed only a total of 285 employees on strike.

Charles E. Mann, representing the telegraphers' said reports to make head-quarters showed 3,500 men in all sections of the southern district had responded to the strike call.

MAY STRIKE ON COAST
SAN FRANCISCO, CAL., June 7.—A strike of commercial telegraphers who are members of the union through Pacific coast states, is to be called June 11, unless demands made upon employers are complied with according to a message received early today by Patrick O'Connor, president of the local organization of the Commercial Telegraphers' Union of America.

The telegram was started by J. L. Marshall, of Los Angeles, first vice president of the organization.

LEGISLATOR INDICTED IN BRIBERY CASE; SURRENDERS AND RELEASED ON BOND

COLUMBUS, O., June 7.—State representative Frank Delehanty, of Cleveland, against whom several indictments charging soliciting and offering bribes in connection with pending legislation, which were returned by the Franklin county grand jury late yesterday, surrendered himself to a deputy sheriff. In criminal court he was released on \$1,500 bond furnished by a local security company.

Two indictments charges Representative Delehanty with having offered Senator Howell Wright, of Cleveland, \$2,000 for Wright's assistance in securing passage of senate bill No. 18, known as the non-medical practice bill. The other indictment charges that Delehanty solicited a bribe of \$500 from Dr. Russell E. Smith, of Columbus, chief lobbyist for the Ohio Chiropractic Association for his (Delehanty's) influence in support of the measure. The alleged offenses are said to have occurred on Feb. 25.

Delehanty appeared in court with his attorney, P. L. Dempsey, of Columbus. Neither would make any statement. No time was set for his arraignment to plead to the charges. If found guilty Delehanty may be sentenced from one to ten years.

Delehanty was admitted to practice law about a year ago. This is his first term in the legislature. He is married and his wife at present is recovering from an operation. He formerly was a professional base ball player.

OPENING STOCKS

NEW YORK, June 7.—General buying of recent favorites was resumed in the stock market today, the demand being notably for General Motors and the shipping, oil and food shares, which showed advances ranging from 1 to 2 points with United Fruit making an exceptional rise of four points. A few stocks weakened under continuation of yesterday's realizing movement. American Woolen receding five points, but the main trend was definitely upward. Railroad shares were quieter and coppers and U. S. Steel moved quite narrowly.

WORLD'S LEAGUE AGAINST ALCOHOLISM IS ORGANIZED

WASHINGTON, June 7.—With a view to carrying prohibition to all parts of the world, temperance workers assembled here for the annual national convention of the Anti-Saloon League of America, organized the "World's League Against Alcoholism."

Four presidents for the new organization were elected as follows: Lief Jones, London, Eng.; Dr. Robert H. Jones, secretary of the International Temperance Bureau, Lausanne, Switzerland; Dr. Howard H. Russell, Westerville, O., founder of the Anti-Saloon League; and Emil Vandervelde of Brussels, Belgium. Ernest V. H. Channing of Westerville, O., was elected general secretary and instructed to open permanent offices for the body in Washington.

Delegates to the Anti-Saloon League convention adjourned their session last night after passing resolutions in support of a world campaign against liquor and against proposals to relax wartime prohibition enactment.

Speed Urged In Allies Reply To German Proposals

(BY THE ASSOCIATED PRESS)

There is every evidence that the leading figures of the peace conference in Paris are endeavoring to hasten the delivery of the allied reply to Germany's counter proposals to the terms of peace. According to all available positive instructions have been given by the council of four to all commissions working on the reply to complete their reports by Monday. If this order is carried out, it is probable the reply will be framed early in the week and will be immediately presented to the enemy delegation.

From reports coming from Paris, it seems that there is a growing sentiment in the council of four that alterations must be made in the treaty, but in what particulars the terms will be modified is not as yet indicated. Premier Lloyd George is attending meetings of the British commission studying the reparations phase of the treaty.

Grand Von Brockhoff-Baumgarten, head of the German peace mission, left Versailles last night for Germany. It is reported from Paris that he is expected to return Sunday. French official circles are said to expect the German to refuse to sign the terms and it is pointed out that a delay would favor the Germans and there is necessity for haste in bringing exchanges between the allies and the enemy to a close.

A most hopeful sentiment is said to be apparent in Berlin. The Italian claims to territory on the eastern shore of the Adriatic also are causing some uneasiness in peace conference circles. The Italian parliament will meet June 18, and Premier Orlando is demanding that a settlement be reached by that time. Disputes from Paris indicate that the deadlock over the situation regarding China and the Balkan coast is still the source of concern and that efforts to arrive at an agreement have been futile. Admiral Kobbek's forces operating in Europe-Asia, are, it is admitted, checked by the Bolsheviks, and it seems probable that there will be, to say the least, quite a serious delay in carrying the campaign to a successful conclusion. Winston Spencer Churchill, British war secretary, declared yesterday that no attempt should be made to encourage extravagant hopes regarding operations in Russia.

Thunberg, Bolshevik, comes from there to advance against Czech troops between Budapest and Vienna. They are reported to have crossed the Danube at Traun and to be menacing Pressburg. French generals are said to be in command of the Czech army there.

58 MILLION DEFICIT FOR RAILROADS IN APRIL

WASHINGTON, June 7.—Director General Hines estimated today that the railroad administration incurred a deficit of approximately \$58,000,000 in April, making a total deficit of \$250,000,000 for the first four months of the year.

The director general reiterated, however, his previously expressed judgment that present economic conditions were too unstable to offer a safe basis for decision as to the necessity for increased rates to offset the difference between income and operating cost. For the present there will be no rate to be added, the administration confining itself to practicing every possible economy.

The net operating income for April was about \$26,000,000, as compared with \$11,000,000 for April last year and an average of \$67,000,000 for April during the three year test period in which the compensation to the roads is based.

In a regular jazz game on the Steel Plant team spatted the Excelsior side a flock of runs and then bested them to the extent 10 to 5. A regular double discount affair. The winners duplicated their policy in the second round of the game. In the first round, after the Steel Plant team had taken the lead, the Excelsior team, who were not at all mystified by the alleged footers and they pumped their twisters for what they called the run on the paps' tail. When the victors had run up a total of eight runs, manager Joe Barker took up the hurling duties and although as wild as a young colt, he allowed the Steel Plant team to take two hits, although this pair of scoundrels from the Excelsior team were not good for three cushions, manager Joe said, yielding a couple of bases on balls.

"Bunk" Delell, tall and scarily did the honors for the Steel Plant, although he had to run up the white flag in the sixth, when Captain W. H. Stallen had victims of the rhot. Delell overcame his lead. Delell allowed a total of 15 hits, but outside of the first inning kept them pretty well strangled. The Excelsior boys made at least one hit in each inning. Delell was given fairly good support and was a cool thing for him that on New ones occurred. He was relieved in the sixth by Shultz, who took the mound with the scales closed. The "Lancaster" had been man for support for in turned three batters, clucked out two hits off, allowing him to reach to face him. He is some pitcher. The fans were delighted with the work of this Shultz, who caught the entire game for the Steel Plant. His last try off his arm showed him up a bit and he allowed but one side base although several tried him out sure to find the ball waiting for them at second.

The Excelsiors made three in the first inning. Bradford turned, though he hit them the box and Barker did likewise. Cornette walked filling the bases. Delell got a huge hit in front of the plate. Hennes scored. Barker sent a beauty drive to right, Barker and Cornette coming to first. These fanned and Delell dumped an easy roller to the box.

The Steel Plant came back hard in their half. Barker singled, so did Delell, who promptly stole second. Barker doubled, relieving the bases of the previous inning. Shultz walked. Delell left to second after "Bunk" Stallen. Shultz singled to short

MAY WIN WOMAN'S GOLF CHAMPIONSHIP

Samson scoring. Stallen was thrown out by Hennes. Shultz scored. Shultz doubled to left, scoring Stallen. Hennes retired to second.

The Excelsiors made one in the second on a single by Barker. A walk to Delell on an error and a long double by Delell. In the sixth they added two more on a walk to Stallen and a triple by Barker, single from Delell. The hit was caught by Delell. The hit was caught by Delell. The hit was caught by Delell.

PENNY ANTE

After A Big Night On The Books

Lexington meeting and will have strong backing. St. Bernard, H. J. Hennes' gelding, and Volante, owned by W. P. Tolson, fourth place horse in the Kentucky derby, will have a large following, while Omond, Clever and Eastern will not lack support.

Rain fell during last night, but not heavy enough, in the opinion of horsemen, to put the track in poor condition. The race is at a mile and a half against a mile and a quarter for the Kentucky derby. Eternal, the eastern crack from the stable of J. W. McClelland, which was beaten in the Kentucky derby, probably will rule favorably for the Latonia powder. Frank, the other eastern entry, owned by C. M. Garrison, probably will be made second choice in the betting. It is owned by Gallagher Brothers. The race is at a mile and a half against a mile and a quarter for the Kentucky derby.

ETERNAL FAVORITE IN LATONIA DERBY TODAY

LATONIA, KY., June 7.—Eight horses have been named to start in the 37th running of the Latonia derby, worth close to \$200,000, at the Latonia track here today. With St. Bernard, winner of the Kentucky derby, not named to start, the field contains probably the best of the other three year-olds of the east and west, and an interesting contest is looked for. The race is at a mile and a half against a mile and a quarter for the Kentucky derby.

MISKE WINS
ST. PAUL, June 7.—Billy Miske, St. Paul, defeated Willie McLean, Pacific coast heavyweight, in a thrilling ten round fight here in a local Miske won it the way.

Jack Dempsey's good fight at the left and Jess Willard's last left. Note the tummy on Jess.

One of the interesting game above is counted on by its owner, Jack Dempsey, to win the heavyweight title away from Jess Willard. The championship is depending upon the other arm to retain the title. Dempsey's right arm has been the subject of much speculation. It is said that Dempsey's right arm is fast and active and that it is the key to his success.
